

LEBANON, KY.

Wednesday Morning, Nov. 14, 1855

Our next issue will complete the third volume of the *Post*. Cannot our friends exert themselves, and procure an additional circulation? We are duly grateful for past favors on this head; but could they not think of us while getting up clubs of fifties for Louisville and other papers? We think they might, and opine that it only needs a hint to induce them to exert themselves.

We administered a bottle of *ketch* up this week to our hands in order to be out at our usual time. But alas! it proved to be too strong and made them sick, and here we are again behind hand.

To Our Farming Friends.

Our town has been a scene of provisions for some time past, as if there had been a total failure of every kind of produce. No flour, no meal, no bacon, no beef, no butter, eggs nor chickens; know nothing. However, there has been more of the last named commodity than either of the others. Why cannot our farming friends bring in such articles as the citizens of this place stand greatly in need of, and of which, we feel convinced, you have the greatest abundance?

Hundreds of bushels of wheat have been shipped from this county since harvest. Would it not be equally as profitable to have some of this surplus ground up for this market? It would almost amount to an act of charity aside from your receiving a good price. Try it on.

THANKSGIVING.—Governor Morehead has issued a proclamation appointing Thursday, the 20th instant, as a day of general thanksgiving, to Divine Providence for the innumerable favors he has bestowed upon this people, during the past year.

A FIRE ENGINE.—When will our enterprising citizens make a move towards procuring one of these really important attachments to every town? Suppose a large fire should break out in this place, one good engine judiciously worked would be far more effectual than the exertions of every citizen in the place with buckets.—We will make one of a company to work the "merchandise." What say you, fellow citizens? By all means let us have an engine.

McCurry of the *Gazette*, tries to manufacture some satirical capital out of our saying that the Champaign was "red and rich." Now the fact of the matter is, the few times that Mac ever drank champagne, they palmed off Jersey cider on him and it is not to be supposed that he knows anything of the appearance of the genuine article.

See the advertisement of Messrs. J. R. Knott & T. G. Young, in another Column. They have really a superb stock and a handsome store. Give them a call.

When any of our subscribers fail to receive their *Post*, we will willingly rectify the matter upon being apprized of the delinquency.

Jon Work.—Our patrons will please bare in mind that we are ready, willing, and waiting to do up all descriptions of Job Work, in a handsome manner, on the shortest notice, and upon the most reasonable terms.

DARKING OUTRAGE.—Whilst Mr. and Mrs. Mayes were visiting a near neighbor on Saturday night last, some person or persons entered their dwelling and committed various depredations. They took an axe and cut and split a fine bureau into pieces in order to rob it. Not finding any money they then took a small table which had a locked drawer in it, out into the yard, and utterly demolished it. Mr. M. has been making preparations to remove to Texas, and the burglars surmised that he had a considerable amount of money in the house; but fortunately he had placed what he had on his person.

The house is about five miles North East of Lebanon, and within halting distance of the one which the lady and gentleman were visiting.

Drizzle, drizzle, drizzle! Nothing else but rain. It would seem as though the clouds were weeping over the fall of a world.

The persons in this county who have been "singing up for a rainy day," now find themselves "singing down for a rainy day."

That Party.

On Tuesday night last, we attended another party at the Union House. As usual, we had a very pleasant time. Beautiful weather, a red of trees, and bright were the sparkling eyes of the ladies who bore the burden of the evening.

Some of the fair beings who graced the festive hall on the occasion alluded to in our last, were again present. The assurance of every eye was a fair, lively, and loving bride—Mrs. S.—and the lucky and happy groom we may not forget to mention.

There was also the witty, gifted, and beautiful Mrs. J. (we do not allude to our own *cara sposa*, but she was there too.) amid whose dimples there seemed to play a thousand little mischiefs. And Mrs. P. who is a charming lady, and one who needs only to be known to be appreciated.

Miss S. of Springfield, was also present and added no little to the enjoyment of the occasion, her bright happy face was decidedly dangerous to the peace of mind of the beaux present. The two Miss B. were there, and Miss L. of Taylor, we believe, and Mrs. K.

We noticed upon the floor Miss H., Miss G., Miss R. and Miss F. [to whose charms we endeavored to pay tribute last week] whirling like angels fair, with the rest, through the busy and intricate maze of the dance.

Mr. Hardy and his excellent lady certainly cannot be surpassed in providing for the enjoyment and comfort of their guests.

We cannot, in justice, close this article without noticing the "Virginia Brothers," who kindly tendered their services as musicians and we must say that we have never "Tripped upon the light fantastic" to better dancing music, and you'd better believe we "spread ourself."

Way up yonder in Lebanon Ky., one Nancy is dishing up "Possum Suppers," to the great delight of the citizens.—*Louisville Times*.

Will you be still! It's Nancy, and not "Nancy," that's doing up them things here. You talk of "way up yonder," as though you thought Lebanon was out of creation. Why we are in the very heart of Creation and "nothin' else." Wait for a few months longer, and we can step down to your miniature city, in a couple of hours; and you will be coming out here to breathe once more the free and untainted air of Heaven.

Louisiana has proved herself a worthy child of the South, by electing for her Governor the gallant Wickliffe, a true democrat, and by birth a warm hearted Kentuckian. Maryland, we are sorry to say has forgotten the memory of Charles Carroll, and gave her voice for proscription and intolerance.

ELECTION NEWS.—We are advised of the complete triumph of the Democratic party in the States of Mississippi and Wisconsin, by very handsome majorities. Know nothingism has been entirely routed. Good news—day is breaking.

MR. WISE AND THE PRESIDENCY.—Mr. Wise has written to a friend in Virginia, in the course of which he says:

The idea of the Presidency, has not been allowed to enter my head. That iron has not pierced my heart. I know how it impairs a public man's usefulness to make such an imputation upon his aspirations. Did the *Sentinel* so intend? It looks very much like as if its fears were father to its thoughts. I can say on the subject, that I mean to keep the even tenor of my way, without a fear, favor or effection. If the Democracy would be guided by me, I can find one hundred men whom I prefer for the Presidency of myself. I can find two at least, in Virginia. One you know of very well. But, if the Democracy only again succeed, and cannot again unite upon a better man than I am, and they will unite upon me. I can only say that I will a *la mode* Jackson—fervently and effectually rule Black Republicanism; I will rule them! But the idea of ruling or not ruling them shall not turn me a hair's breadth from my own convictions as to what my duty as a patriot requires. I will write, speak, act as I think right, and leave the consequences to God and "the country," without thinking of the Presidency.

THE POETRY OF PHYSIC.—Doses have always been associated in our minds with wry faces, and medicine has seemed from the days of childhood, another word of nausea and disgust. Its remedies were the worst part of sickness, and pain was not so hard to bear as the revolting portions we are compelled to swallow for relief. Dr. Ayer's preparations herald another era. His *Cherry Pectorals* like honey on the tongue, and healing balm on the stomach. His Pills! Try them—they are sweet morsels to the taste, and glide sweet-sod over the palate, but their energy although wrapped up, is there, and strikes with telling force to the very foundations of disease.—*Cincinnati Citizen*, O.

The *Westminster Review* for October contains a very able article, proving that drunkenness cannot be cured by legislation.

Bishop Spaulding's Cathedral.

The tower of this fine edifice has been built to a height of one hundred and twenty-five feet, and positions for the winter have ceased. There will be fifty feet of additional masonry, and then the spire will be erected. This will be from the ground to one hundred and twenty-five feet high, and half of iron. A cross will surmount the whole, informing, upon first sight, the passer-by as to the character of doctrines inculcated below. The Cathedral in itself is a very beautiful structure of worship. The interior is very large and commodious, affording seats to more persons than any other room in the west. The altar is exceedingly gorgeous, while the other embellishments are of such a character as to render the place a busy out-door world. In the superb paintings that decorate the walls, the student of art can find food for days of contemplation. One of the pictures is an original Van Dyke, and was presented some time ago to the Cathedral by the King of Naples. It is exceedingly valuable, being worth not less than *twenty thousand dollars*. The music to be heard in this temple of worship on the Sabbath, is something of which we shall say more anon.—*Lou. Cou.*

Riots in Albany, N. Y. on Election Day.

MAN SHOT DEAD.—William McCrossen and Michael Brennan had an altercation at the Second Ward poll this morning, during which McCrossen drew a pistol and shot Brennan through the heart, causing his almost instant death.

The rencontre, as we learn from those present, was not a political matter, it growing out of personal enmity of long standing.

The statement made to us is that Brennan attacked McCrossen, when, by the interference of those assembled, B. was pulled off. McCrossen then sprang into the street saying, "let him come on, I'm ready for him."

Brennan started to go at McCrossen, when he (McC.) drawing a pistol discharged it at B., the ball entering the left breast near the region of the heart.—Brennan turned, made an attempt to run and then fell dead!

Two policemen then seized McCrossen, who made no attempt to escape, and he was taken to the second district house.—Brennan was taken up by his friends and carried to his home.

McCrossen was badly beaten by Brennan a year ago last 5th of July, and there has been a bitter feeling between them since. Both were politicians of the same school, and both at work for the same candidates.—*Alb. Transcript*

TO PREVENT BLOOMERS.—The patent petticoat lifter is the great centre of attraction at the fair of the American Institute, at the Crystal Palace in New York. It is thus described:

There are four small pulleys attached to the waist underneath the dress, over which are four small cords, one end of which is attached, with diaper pins, severally to the front, rear and sides of the skirt, at about the height of the knee. The other ends terminate the loops, which are led into the pocket on either side. If a lady wishes to go up stairs, she pulls loop No. 1 in the right pocket, and instantly the dress rises in front, so that the ascent is made with perfect grace. No. 2 in the left hand pocket elevates the rear in the same manner, and all pulled at once lifts all the skirt knee high.

DIVORCES IN INDIANA.—In Perry county, Ind., at the late term of the County Court, there were no less than twenty-two applications for divorce. One lady sent forth as the ground of her application that her lord always slept with his back toward her. He set up in defense that she would eat onions.

ANOTHER PRIZE FIGHT.—Another pugilistic display is to come off on the Canada side of the river, within the course of two weeks. The "knock down" is to be between Sweetman and Dutch Sam, both belonging to this city, and fighters by profession. The amount up is \$600.—*Baltimore Courier*, Oct. 30.

CHARGED WITH A HEAVY ROBBERY.—Henry S. Vaughn, carpenter of the steamship *Sonora*, has been held in \$16,000 bail, in New York, to answer a charge of stealing gold dust and coin to the amount of \$37,000.

Hon. Archy Dixon made a two-hour speech at Madisonville, Hopkins county, on the 5th inst, before a large audience. He exposed the deformities of Know-Nothingism in a masterly manner. His speech produced a great effect.

LARGE YIELD OF WHEAT.—Mr. J. A. Chandler, of Caroline, Va., raised, the past season, eight hundred and thirty bushels of prime wheat on eighteen and a half acres of accurately measured land, being nearly forty-six bushels per acre! He received a premium of twenty dollars for this yield, at the State Fair in Richmond last week.

WITHDRAWING AMMUNITION FROM CANADA.—The Montreal Chronicle states that the commissariat advertises for a vessel to convey six thousand of cartridges from Quebec to England. The large consumption of ammunition in the present war not only exhausts all that the mills can make, but will cause the larger part of the contents of the provincial magazines to be called out of their slumbers into actual service.

The Cincinnati *Gazette* says that Dr. Chaffee who has just been elected to Congress by the know nothings in Massachusetts, voted himself the entire Republican ticket.

Letter from Port au Prince.

Mayor Wood received the subjoined letter a short time ago from Joseph N. Lewis, U. S. Commercial Agent at Port au Prince by which it will be seen that a bark, called the *Amelia*, has been detained at that place, in consequence of a large amount of arms and ammunition having been found on board. The Mayor has sent a copy of the letter to the U. S. District Attorney, Mr. John McKoon, as it does not come under his jurisdiction.

EVERETT'S PATENT COUPLING FOR CARRIAGES.
The undersigned, feeling grateful to the public, for the patronage so liberally extended to him already, and desirous of meeting the increasing demand, would most respectfully inform the citizens of Marion and neighboring counties, that, having enlarged his shop, and procured competent workmen in each branch of the business, and having bought the exclusive control of E. & C. EVERETT'S PATENT COUPLING for Carriages, for the Counties of Marion, Washington, Green, Taylor, Larnie and Adair, that I am now manufacturing with that improvement, and will have on hand, early next Spring, an assortment of Close Carriages, Rockaways, Phaetons, and Double Seat Buggies. All of which I will put against any factory either East or West, for style and durability. My work is warranted for one year, and kept in repair until worn out, on reasonable terms.

I will put the Patent on each job, guarding against, being turned over, either by turning, backing, side jumps, or running away; as the wheels cannot touch the body, and yet turn in one half the space usually taken. NO EXTRA CHARGE.

Selecting my stock in New York, at first cost prices, I will sell lower than any other city in Kentucky, for the same class of work, and on reasonable terms, being, cash, good notes, country produce, negroes, &c.

POCKET BOOK LOST.
LOST on Sunday 28, of Oct. a Port Monnaie, between Lebanon and Wm. A. Watkins. Said Port Monnaie contained \$27.75, and 1 note on John Schoening and R. F. Saunders, to the amount of \$2500, with a credit of \$100, on same. Also, some other papers of no value to pay one but myself.

I forewarn all persons against trading for said note. A liberal reward will be paid for the delivery of said Port Monnaie and contents to me. CHAS. HARRISON.

HURLEY'S SARSAPARILLA.
OF all the remedies that have been discovered during the present age for the "blood" and "the flesh is heir to," none equal this wonderful preparation. Only three years have elapsed since the discoverer (who spent a decade in hard labor, experimenting, and perfecting it) first introduced to the public, and is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy for certain diseases of which they have knowledge.

All other compounds or syrups of the root have hitherto failed to command the attention of the faculty, because on being tested they have been found to contain noxious ingredients, which neutralize the good effects of the Sarsaparilla, and often times injure the health of the patient. It is not so with Hurley's preparation.

This is the pure and genuine extract of the root, and will, on trial, be found to possess a certain and perfect cure of the following complaints and diseases: Affections of the Bones, Habitual Constipation, Debility, Indigestion, Diseases of the Kidney, Liver, complaint, Dyspepsia, Piles, Erysipelas, Pulmonary diseases, Female Irregularities, Scrofula, or Kings Evil, Fistula, Syphilis, and All Skin Diseases.

Besides curing the above it is known to be a great and powerful tonic, purifying the blood and invigorating the system. In short, it is without exception, in the cases mentioned, and its general effect upon the system, the most efficacious, as it is the most desirable remedy of the age. It is already extensively used throughout the country, and is fast obtaining an European reputation. The instances of cures it has effected are daily coming to the proprietor's knowledge, and he has no hesitation in recommending it to one and all who desire to procure relief from suffering. One bottle being tried, its effects will be too apparent to admit of further doubt.

Recollect Hurley's Sarsaparilla is the only genuine article in the market.
Price \$1 per bottle, or six bottles for \$5.
For sale at the manufacturers, corner Seventh and Green streets, Louisville, Ky. And by L. H. NOBLE, and L. A. SPALDING, Lebanon, Ky. Oct. 31st.

UNION HOUSE.

A. S. HARDY.

HAVING recently purchased the House formerly occupied as a Hotel, and situated on Main Street, Lebanon, Ky., and in a retired and pleasant portion of the town, I have re-fitted and re-furnished the entire establishment in a handsome manner, and am now prepared to receive travelers or regular boarders by the day, week, month, or year.

My table shall always be furnished with the very best the market can afford; and I intend that my prices shall in all cases be carefully attended to, as I have made all necessary arrangements to that end, and there will shortly be a large, comfortable and handsome new stable erected on the premises. "O! she goes," said Mrs. Partington, when the train started.

"Mustn't the gender, Ma'am," said a stranger, "it's the mail train."

"How to go to it?"—Go it strong in your praise of the nation. Some of it will be sure to get around.

Go it strong when you make love to a pretty widow. More people have erred by too little than by too much in this particular.

Go it strong when taking up contributions for a charitable purpose. It will pay.

Go it strong when you make a public speech. Nine people out of ten never make any allusion to it, but it is a short-handled whip or a thimble for cowards.

Go it strong when you advertise. Business is like architecture—its best support are full columns.

Didn't Travel.—A young man and a female came upon a time stopped at a country tavern. Their awkward appearance excited the attention of one of the family, who commenced conversation with the female, by inquiring how far she had traveled that day. "Travelled!" exclaimed the stranger, somewhat indignantly, "we didn't travel, we slid!"

Onkiso Omens.—"Edward," said his mother to a boy of eight years, who was trudging hoop in the front yard, "Edward, you must not go out of that gate into the street."

"No, ma, I won't," was the reply.

A few minutes afterwards she saw Edward in the street, engaged in the edifying employment of manufacturing dirt pies.

"Didn't I tell you," said she angrily, "not to go through that gate?"

"Well, I didn't, mother," was the very satisfactory reply, "I climbed over the fence!"

FATHER SHOT BY HIS SON IN UTAH.—We are informed that a serious shooting affray took place at Clark's Mills, in the town of Westmoreland, on Wednesday night. A man named Henry, who resided with his son, had been in a habit for some time past of staying away from home until an unreasonable hour of the night and disturbing the family after they had retired. There being no reasonable cause for the absence of the father, he had frequently been importuned by his son, and at length threatened with expulsion if he did not change his habits. On Wednesday night he returned about 10 o'clock, when an altercation took place between them, resulting in the father receiving a severe and perhaps dangerous wound from a pistol ball fired by his son. We are not informed of all the particulars. The young man was taken into custody. Both father and son are represented as being industrious mechanics, and were employed in the machine shop of Clark's Mills. They formerly resided in Saratoga county.—*Utah Gazette.*

One of the Subscribers.

A long-winded, dun-proof subscriber to an Illinois newspaper, after repeated dunning, promised that the bill should be paid by a certain day, if he was alive. The day passed over and no money reached the office. In the next number, therefore, of the paper, the editor, inserted among the deaths a notice of his delinquent friend's departure from this life. Pretty soon after the announcement, the subject of it appeared to the editor—not with the pale and ghastly countenance usually ascribed to apoplexy; nor did he wait to be spoken to, but broke silence.

"What sir, did you mean by publishing my death?"

"Why, sir, I meant what I mean when I publish the death of any person—to let the world know that you are dead."

"But, I am not dead."

"Not dead?—then, it is your own fault, for you told me you would positively pay your bill by such a day, if you lived to that time. The day passed—the bill is not paid, and you must positively be dead, for I would not believe that you would forfeit your word."

"O, no! I see that you have got round me Mr. Editor, but say no more about it—here's the money. And, harkye, my wag, don't forget to contradict my death next time you print."

"Oh, certainly sir just to please yourself, though, upon my word, I can't help thinking you were dead at the time specified, and that you really have come back to pay the bill on account of your friend ship to me."

ROBBERY OF THE SANTA FE MAIL.—A letter from Lima, Osage county, dated the 27th, says it is supposed about \$20,000 were taken from the Santa Fe and Independence mails, recently robbed at Maries river. Gilbert, to whom the robbery has been traced, was a stage driver, but not on the route where the robbery was committed. There were some \$8,000 in draft which he did not take. After the robbery he proceeded to Mr. Orms, and on the 27th a package, or a portion of a package, of letters, from Independence to St. Louis, was found in the woods. Among them was a draft upon Darby & Barkdale for \$100, in favor of—, for How & Cookan envelope addressed to Benton, Pomeroy & Co., but no letter; it probably contained money. One letter directed to H. Knapp & Co., Republican agent, no to Milwaukee & Co., one to Wm. Lindsey, one to Mrs. Harst, and others not remembered. *St. Louis Republic,* Oct. 31.

Ordered to change their religion from Catholicism to Protestantism, and not so much as to be converted as to be converted.

SACKS VS. BAGS.—Mr. Lover tells a good anecdote of an Irishman giving the password on the evening before the battle of Fontenoy, at the time the great Marshal Saxe was Commander.

"The password is Saxe,"—now don't forget it, Pat," said the Colonel, his Irish servant, "see now you don't forget it—Saxe."

"Sacks!" quoth Paddy, "faixan I will not. Wasn't my father a miller, sure?"

"Who goes there?" cried the sentinel as Pat approached the post.

"Pat looks as grave as an owl, and in a sort of whispered howl, replied,—

"Bags, yer honor."

A poet says: "I dreamt that I was engaged in writing, and that in the midst of a sentence a mosquito came buzzing in my ear. I reconstituted with him for disturbance, having spoilt a beautiful paragraph. 'I will not trouble you,' he replied, 'I have merely come to punctuate a sentence.'"

Overcome evil with good.—as the gentleman said when he knocked down a burglar with the family bible.

Physio-pathic System OF CURING CHRONIC OR LINGERING DISEASES.

The peculiar system of treatment which I have for some years back pursued in chronic or long standing diseases, with such extraordinary success, I have named the *Physio-pathic*, that is, in plain English, the art of healing those diseases agreeably to the laws of nature. In an advertisement like the present, it cannot be expected that the principles upon which this system is founded can be announced.

The sphere of this system is not limited to any particular class of diseases or disorders, or to the diseases of particular organs; the eye, the ear, or the skin; but embraces the whole range of human chronic maladies, even affections of the mind, and congenital diseases or deformities, that is, those with which one is born. A great many of the affections which formerly required frightful, painful and often dangerous surgical operations are found to yield to its mild but powerful influence. It is emphatically the system for the successful treatment of all the strange, curious, obstinate pains, feelings, sensations, symptoms, disorganizations, and complications of chronic disease, and a very large number of diseases which hitherto have been considered as absolutely incurable, have been and can be cured by it. It is in a word capable of curing all the inveterate diseases that any of the other systems is capable of curing, and a large number besides, in which either of them would be found quite powerless.

But does the practice prove the theory? I answer that it does, and this conclusion is as the many who have already been cured by it can amply testify; but I suppose those who know myself personally, and the number is large and respectable in Madison county, will be content with my own word for it. I take no certificates of cures, deeming such as only becoming practitioners who effect only *chance* cures. The *Physio-pathic* method rests on a basis so solid that astonishing cures by it appear as no great wonder, but only as the result of natural laws directed by professional acumen and skill.

The following are some of the diseases in which this new practice has been found most successful, to wit:—Epilepsy or fits, St. Vitus' Dance, Cataplexy, Scintilla, Neuralgia, Tic Dolorous, Spasms, Paralysis or Palsy, Wens and other Tumors or Lumps, some kinds of Cancer, Dropsy, Chronic Erysipelas, Rheumatism, Gout, Polypos, Scrophulous Chronic sores eyes, Blindness, Cataract, Amaurosis, Film over the eye, Deafness, Ringing from the ears, Ozana, Chronic Bronchitis, Asthma, Spitting of blood, Diseases of the heart, Dyspepsia, Gastritis, Liver diseases, Jaundice, Piles, Obstinate Constiveness, Chronic Diarrhoea, Diabetes, Gravel, Hip joint diseases, White Swelling, Fistula, Night mare, Mental disorders or affections of the mind, &c. Likewise the most troublesome affections peculiar to females; and among the diseases of children I would particularly mention: Spitting, Stomachic, Rickets including Hummock Scaldhead, Protrusion or bulging down of the fontanelle, &c.

N. B. The medicines are prepared in a manner that is especially my own, and are remarkably pleasant, in fact almost tasteless. No cutting instruments or other harsh means used in the above cases.

Charges, including medicines, \$3 to \$5 per week, where I have not time to see my patients. Boarding can be had in this pleasant Village on moderate terms, and a stage runs through here from Louisville, every Tuesday, Thursday and Saturday.

Patients at a distance who are unable to come to see me, can, as the next best expedient, consult me by letter. On sending an exact statement of the history and symptoms of their case, mentioning also any other affections they may have, and at the same time enclosing a fee of not less than \$3. (except in the case of the poor,) they will receive medicine with directions, by mail, post paid.

PROSPECTUS OF

ST. MARY'S COLLEGE.

NEAR LEBANON, MARION CO., KY.

This Literary Institution, founded in 1821, by the late Rev. WILLIAM BRYAN, and subsequently conducted for many years by the Jesuits, is now under the superintendence of the Right Rev. Bishop of Louisville, who will always take measures to provide a suitable Faculty for carrying it on with a view to promote the greatest public good. Under the auspices of its previous conductors, the Institution has been instrumental in widely diffusing the blessings of a religious education throughout Kentucky and the adjoining States.—The steadiness of its patronage has been a constant evidence of the public approval. The beauty and salubrity of its situation, as well as the spaciousness and commodiousness of the college buildings, are generally known. It will be the constant aim of the Faculty to adapt, so far as practicable, the plan which it was so well and so usefully conducted by its enlightened and benevolent Founder.

Scott's Weekly Paper.

The Publishers of this large and popular Family Journal offers for the coming year, (1854) a combination of Literary attractions heretofore unattempted by any of the Philadelphia Weeklies. Among the new features will be a new and brilliant series of Original Romances by George Lippard, entitled "Legends of the Last Century." All who have read Mr. Lippard's celebrated "Legends of the American Revolution" published for fifty-six consecutive weeks in the *Saturday Courier*, will find these pictures of French and American History endowed with all the power and brilliancy of his previous productions. The first of a series of Original Novellettes, called "Marris Hartley," by the Knights of the Mystic Valley, by Harrison H. J. J. is about to be commenced. It will be handsomely illustrated with 12 line engravings, and its starting incidents are of a most extraordinary and thrilling nature.

The distinguished Novelist, the favorite of the West, and the author of some of the finest productions ever read, is also engaged to furnish a brilliant Novellette to follow the above. Mrs. Mary Andrews Denison, author of Home Pictures, Patriotic Writings and her Grandmother, &c., will contribute a splendid Domestic Novellette, entitled the "Old Ivy Grove," and H. C. Watson an illustrated Story called the "Two Edged Knife"—a graphic picture of Early Life in Old Kentucky. To these will be added Original Contributions and selections from Mrs. Caroline Lee Hentz, Clara Clairville, Lillie Libery, Grace Greenwood, and other distinguished writers; the news of the day, graphic editorials, full reports of the provision, money, and stock markets, letters from travelers at home and abroad, &c. &c.

THE BRITISH PERIODICALS.

AND THE

FARMER'S GUIDE.

LEONARD SCOTT & CO.

No. 51 Gold street, New York.

CONTINUE to publish the four leading

British Quarterly Reviews and Black-

wood's Magazine; in addition to which

they have recently commenced the publication of a valuable Agricultural work, called

the "FARMER'S GUIDE TO SCIENTIFIC

AND PRACTICAL AGRICULTURE,"

by HENRY STEPHENS, F. R. S., of Edinburgh, author of the "Book of the Farm,"

&c., &c., assisted by J. M. P. NORTON,

M. A., New Haven, Professor of Scientific

Agriculture in Yale College, &c., &c.

This highly valuable work will comprise

two large royal octavo volumes, containing

over 1400 pages, with 18 or 20 splendid

engravings, and more than 600 engrav-

ings on wood, in the first style of the

art, illustrating almost every implement of

husbandry now in use by the best farmers,

the best methods of plowing, planting,

hoing, harvesting, &c., &c., the various

domestic animals in their highest perfec-

tion; in short the pictorial feature of the

book is unique, and will render it of incal-

culable value to the student of Agriculture.

This work is being published in Semi-

monthly Numbers, of 64 pages each, ex-

clusive of the Steel engravings, and is sold

at 25 cents each, or \$5 for the entire work

in numbers, of which there will be at least

twenty-two.

The British Periodicals Re published

are as follows, viz:

The London Quarterly Review (Conserva-

tive).

The Edinburgh Review (Whig).

The North British Review (Free Church).

The Westminster Review (Liberal), and

Blackwood's Edinburgh Magazine (Tory).

Although these works are distinguished by

the political shades above indicated, yet

but a small portion of their contents is de-

voted to political subjects. It is their liter-

ary character which gives them their chief

value, and in that they stand confessed-

ly far above all other journals of their

class. Blackwood, still under the

masterly guidance of Christopher North,

maintains its ancient celebrity, and is, at

this time, unusually attractive, from the

serial works of Bulwer and other literary

notables, written for that magazine, and

first appearing in its columns. In Great

Britain and in the United States, such

works as "The Caxtons" and "My Novel,"

(both by Bulwer), "My Peninsular

Medal," "The Green Hand," and other

serials, of which numerous rival editions are

issued by the leading publishers in this

country, have to be reprinted by those

publishers from the pages of Blackwood.

AFTER IT HAS BEEN ISSUED BY MESSRS.

SCOTT & CO., so that subscribers to the

reprint of that Magazine may always rely

on having the EARLIEST reading of these

fascinating tales.

Another Scientific Wonder.

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S

PEPSIN,

7 3 TRUE

DIGESTIVE FLUID.

GASTRIC JUICE!

Prepared from Rennet, or the Fourth Stomach

of the Ox, after directions of Baron Liebig,

the great Physico-chemical Chemist, by J. S.

HOUGHTON, M. D., Philadelphia, Pa.

"DIGEST!" Such is the true meaning of

the word PEPsin. It is the chief element, or

great Digesting Principle of the Gastric Juice,

the Solvent of the Food, the Purifying, Preser-

ving and Stimulating Agent of the Stomach and

Intestines. It is extracted from the Digestive

Stomach of the Ox, thus forming a true Digestive

Fluid, precisely like the natural Gastric Juice

in its Chemical powers, and furnishing a com-

plete and perfect substitute for it.

This is Nature's own Remedy for an indiges-

ted Stomach. No art of man can equal its cur-

ative powers. It contains Alcohol, Bitters,

Acids, & Nauseous Drugs. It is extremely

agreeable to the taste, and may be taken by the

most feeble patients who cannot eat a water

cracker without acute distress. Beware of

Drugged Imitations. Pepsin is not a Drug.

Half a teaspoonful of Pepsin infused in wa-

ter, will digest or dissolve five pounds of Roast

Beef in about two hours, out of the stomach.

Scientific Evidence.

The Scientific Evidence upon which this

Remedy is based is in the highest degree curious

and remarkable.

cular, gratis, giving a large amount of scientific
